Tile it

Before

How to apply 15cm Self Adhesive Wall Tiles

After

Tools for the job

* Tape measure or ruler
* Pencil
* Cloth
* Utility knife

STEP 1

Clean the surface thoroughly to remove any grease or dirt.

STEP 2

Peel back the backing paper to reveal the adhesive side.

For more detailed information, check out our how-to videos in the help section of our website

www.createyourworld.co.uk

STEP 3

Stick the tiles into place.

STEP 4

If you need to cut the tile...

Measure where the cut needs to be and mark on backing paper.

STEP 5

Score

STEP 6

Snap

Use over flat tiles or on painted walls. The rigid vinyl tiles can be applied over any size tile and will stop any grout lines showing through.

Mix & match to create your own look!
