

Anti-slip carpet underlay – Function Loom & Cromford

Anti-slip, Art.-No. 336-80XX, 336-81XX

Preparation:

Cut the carpet underlay to the size of the carpet. If the carpet exceeds the size of the underlay, ensure that the carpet underlay is laid under the edges of the carpet and at the centre of the carpet, as a minimum.

Laying:

Suitable for smooth floor surfaces, e.g. tiles, laminate and vinyl flooring. The product is also suitable for underfloor heating. Do not use on freshly sealed varnish! After curing, only suitable for solvent-free oil and wax sealants. In wet conditions, the anti-slip effect is limited.

Care:

The carpet underlay is machine washable at 40°C.
